CERTIFICATE IN HEALTH INSURANCE PRINCIPLES AND PRACTICES IN UAE

The Certificate in Health Insurance Principles and Practices (CHIPP) is designed to provide persons working in the health insurance industry in the United Arab Emirates with foundation knowledge in health insurance principles and practices that are universally applied in the international insurance market.

The course will further provide learners with an understanding of the conduct of the Health Insurance Market in UAE as well as the regulatory and supervisory framework.

WHO SHOULD ATTEND?

- ◆ The course assumes no knowledge of insurance and is aimed at new graduates, jobseekers, and new and existing employees in the industry.
- ◆ Individual who advises upon, markets or sells health insurance products by any marketing channel whatsoever
- ◆ Insurance practitioners and ancillary service providers in healthcare.
- ◆ CHIPP is also beneficial for people who work with employers and sponsors who buy group Medical insurance.

TOPICS COVERED

- Universal Healthcare
- The Regulation of the Health Insurance Market in the UAE
- Application of Legal Principles of Insurance to Health Insurance
- The Private Health Insurance Policy
- Risk Assessment, Pricing and Underwriting
- Claims
- Controlling Claims Costs, Fraud and Abuse
- Conduct of Business and Professional Ethics

HOW TO OBTAIN THE QUALIFICATION?

To obtain the certification, candidates must pass the online examination provided by RISC Institute consisting of 75 multiple choice questions in two hours. Pass mark is 70%.

On successful completion, a certificate attested by KHDA will be awarded which is recognized in the Emirates by all public and private entities for all purposes.

CERTIFICATE IN HEALTH INSURANCE PRINCIPLES AND PRACTICES IN UAE

PREPARATION FOR THE QUALIFICATION

The preparation for this qualification is provided by RISC Institute in the following options:

- ⇒ E-Learning: PDF study text, practice questions and online examination
- ⇒ E-Learning with boot camp and online examination
- ⇒ 24-hour in-class structured learning with e-learning support and examination

We also offer various flexible training methods for corporates including 24 hours in-house classroom instruction, one day boot camp and in-house examination facilitation.

BOOT CAMPS

The RISC Certificate in Health Insurance Practice boot camps are essentially a one-day revision class for candidates preparing to sit for the exam. They consist of three to four hours during which the instructor will take the participants through 75 to 100 practice questions of the same style and level of difficulty as the examination on PowerPoint slides using an Audience Response System for each participant to give his or her individual answer.

At the end of the boot camp, the sponsor and the trainees will be given the percentage scores in each learning objective to enable them to focus their final efforts on areas of weakness.

Under this offer we will also facilitate the online examinations at the company's premises using our own equipment at a date and timing at the client's convenience.

IN-HOUSE EXAMINATION FACILITATION

RISC Institute provides public online examinations at its center in JLT, Dubai. As a corporate solution, we also provide in-house examination sessions for companies wishing to hold the examinations for groups of their employees.

Benefits of this service:

- + We provide all group registration and payment formalities rather than individuals having to register and effect credit card payments.
- + In-house pricing
- + Exam sessions are held at any date and time agreed with the client.
- + These sessions may be held at our center in JLT or at the client's premises using our own laptops (additional fee applies).
