

YOUR ROAD TO CERT CII

THE PROGRAMME

Qualifications from the **Chartered Insurance Institute** are recognized across the global financial planning and insurance sector as evidence of commitment, knowledge and understanding. Completing a CII qualification can make a difference in your career.

RISC Institute offers tuition classes to earn the CII Awards as well as study route leading to the completion of the Certificate in Insurance through part-time study in the evening.

Earn CII qualifications through RISC Institute's blended learning approach that combines in-class tuition, online tutor-led instruction, RISC courseware, practice quizzes and CII text books and examinations.

RISC programme routes are suitable for those practitioners who are new to the sector or those in associated industries and support roles and just beginning study for an insurance qualification or those who are seeking to build on existing knowledge through formal study.

BLENDED LEARNING APPROACH

This programme gives you the pace and structure of a weekly tuition classes, interacting with other participants in your group, and the delivery by an experienced instructor. The live classes include topic slides, case studies and quizzes.

The in-class live sessions are held in RISC Institute's Training Centre in Jumeirah Lakes Towers, Dubai and/or partner in Abu Dhabi in a specially equipped classroom and broadcast as live webinars. Participants can attend either through the webinar or physical presence in the class. In either case, they will be able to interact with the tutor and other participants in the class just as if all are physically present.

An Audience Response System will also be used during classes whereby trainees will individually answer quizzes that are presented to them on the slides. The answers are recorded and scored and the results will be given to the trainee.

Using our Moodle e-learning platform, participants will have continuous support from the tutors as well as interaction with other participants in the group using such e-learning tools as topic forums, community tools, self test quizzes, further reading, knowledgebase and moderated assignments.

This blended learning package will also provide the opportunity for busy insurance practitioners from all over the region to reach their career goals and obtain professional qualifications on their own time without conflicting with the demands of their job and avoiding the hassles of travelling and the associated cost.

ASSESSMENT AND AWARDS

- The examinations will be online/computer-based, 50 to 100 multiple-choice questions (MCQ) to be completed between 60 to 120 minutes.
- Each exam sitting will be conducted on a Saturday or on a preferred date on weekdays. CII booking policy applies.
- Upon completion of an award, you are entitled to use the designation "CII (Award)". Beyond the Awards, you can progress to Cert CII.
- Candidates who have successfully completed three (3) specified units, will be able to receive the Certificate in Insurance or the Certificate in Insurance and Financial Services.
- A total of 40-45 credits will be awarded to successful candidates and these credits can be used towards further CII qualifications.
- Successful candidates will be eligible to use the sector respective designation "Cert CII", providing a means of demonstrating educational and professional achievement to the public and to peers. Membership and Continuing Professional Development (CPD) requirements apply.
